Richard,

re: 2015 FE Guide - Errors in EPA's data base as of May 28, 2014

Attached are the data in Verify as of May 28, 2014. Labels with pea green fill in the first few columns have errors which need to be corrected before I can have the data posted on www.fueleconomy.gov. The errors are also highlighted in yellow fill in the column where the error occurred. [Note that the method our macro uses for calculating voluntarily increased CO2 values is outlined in section 10.1 of CD-13-11---(if the macro flagged any errors in voluntarily increased CO2 values).]

The next normal posting of 2015 FE Label data will be on June 1, 2014 (on a monthly schedule where I run the query on the 1st, 9th, 15th and 23rd of the month) and send the data to DOE for posting on that day (or a day later).

Please make any needed corrections to Verify when you get a chance.

Thanks

Dave
